

NORTHWEST PASSAGE 2020

This is the true definition of deeper travel. Canada's archipelago of 36,000 islands has long been the nemesis of explorers, and to date, there have still only been 289 crossings. Join us on the 290th and become part of history. But do not be fooled by thinking that this voyage is all about the ice; think crystal fjords and glaciers, Inuit villages and a wealth of diverse wildlife sightings.

ITINERARY HIGHLIGHTS

SISIMIUT

Located just north of the Arctic Circle, Sisimiut is the northernmost town in Greenland where the port remains free of ice in the winter. Yet it is also the southernmost town where there is enough snow and ice to drive a dogsled in winter and spring. In Sisimiut, travelling by sled has been the primary means of winter transportation for centuries.

ILLULISSAT

Known as the birthplace of icebergs, the Ilulissat Icefjord produces nearly 20 million tons of ice each day. In fact, the word

Ilulissat means "icebergs" in the Kalaallisut language. The town of Ilulissat is known for its long periods of calm and settled weather, but the climate tends to be cold due to its proximity to the fjord.

BEECHEY ISLAND

Beechey Island is a small Beechey Island played a significant role in the history of Arctic Exploration. In 1850 Edward Belcher used the island as a base while surveying the area. Later, in 1903, Norwegian explorer Roald Amundsen stopped at the island at the beginning of his successful voyage in search for the Northwest Passage.

ITINERARY HIGHLIGHTS

CAPE DEZHNEV

Located between the Chukchi Sea and the Bering Sea, Cape Dezhnev comprises the easternmost mainland point in all of Eurasia. The cape is the edge of a rocky headland with steep, carved-looking cliffs. Ashore can be found one of Russia's most famous lighthouses.

KOLYUCHIN ISLAND

Kolyuchin Island is a small island in the Chukchi Sea that is uninhabited and covered with tundra vegetation. The island has steep, dramatic bird cliffs teeming with Pelagic Cormorants, Thick-billed Murres and kittiwakes.

UELEN VILLAGE

Located north of Cape Dezhnev in Chukotka along the Bering Strait, the small coastal village of Uelen is the furthest east settlement in all of Eurasia (and is also the closest Russian settlement to the United States). Archeological investigations suggest that humans have lived in this area for at least 2000 years. The Chukchi and Inuit that now live in Uelen are known as excellent carvers, working in walrus, whalebone and reindeer.

WILDLIFE HIGHLIGHTS

Horned and Tufted Puffins | Polar Bears | Musk Oxen
